   c. A MAT score of at least 380

Aerospace Security Certificate coursework is available at the OSU-Stillwater campus, the OSU-Tulsa campus, and in Oklahoma City at the Oklahoma Military Department facilities, 63rd and Kelly. Each site may have a unique variety of coursework and instructors.

The Security Certificate Program is intended to attract security managers and practitioners from across a wide spectrum of the aerospace community. The following chart illustrates a sampling of agencies who may wish to send existing employees through our program or who might wish to hire graduates from the program.
