How to prepare the “Green Cleaning – Recipes for a Healthy Home” recipes:

- The following pages, “Green Cleaning – Recipes for a Healthy Home,” should be printed back to back on heavy weight paper.
- The odd number recipes will be on top and the even number printed to the back.
- Each recipe can then be cut apart and laminated (or you could laminate the entire page and then cut each recipe apart).
- Punch a hole in the open space on the upper left area of each recipe.
- Be careful not to place the hole near the edge of the recipe, where it might tear during use.
- Stack the individual recipes with the odd number recipes on the top.
- Use a ring to hold them together.

Keep your recipes with your green cleaning supplies.
