

Health Education and Promotion Degree

Some of the courses undergraduate students take in order to obtain a Bachelor of Science degree in Health Education and Promotion:

Total Wellness	Health Behavior Theory
Principles in HEPR	Program Design
Community Health	Health and Sexuality
Alcohol and Drug Education	Principles of Epidemiology

Health Education and Promotion Internship

Every student must also complete an internship during their senior year in Health Education and Promotion to graduate. The internship is designed to provide on-site job experience in health promotion or health-related settings. Each student completes 400 contact hours at their site and earns 12 credit hours for the class. Following are some examples of where OSU HEPR students have interned:

Kingfisher County Health Department, Kingfisher, OK
St. Francis Health Zone, Tulsa, OK
OneWorld Health, Charleston, SC
Garden House Alzheimer's Clinic, Morro Bay, CA
YMCA of Ponca City, Ponca City, OK
NEO Orthopedics & Rehabilitation, Miami, OK
Rural Health Projects Inc., Enid, OK
Elite Performance Training, Prosper, TX
Oklahoma City Sports Association, OKC, OK
