

ED.D. AVIATION & SPACE ONLINE DEGREE PROGRAM

COLLEGE OF
EDUCATION,
HEALTH &
AVIATION

The online Doctor of Education in Applied Educational Studies with the aviation and space specialization emphasizes aviation leadership and executive development, administration of aviation institutions, aviation law, air carrier industry, international aviation issues and applied aviation and space research. The degree also emphasizes the development of air and space flight; the earth's air, land and water systems; and the solar systems to include the sun, planets and probes.

The program seeks doctoral candidates with strong intellects, proper educational preparation, breadth and depth of aviation and space experiences and the capacity for disciplined investigations. The scope of the program is designed to prepare professional leaders for positions in the aviation and/or aerospace industry as well as prepare future faculty members to instruct aviation and/or aerospace content within a higher education setting.

PROGRAM HIGHLIGHTS

- ▷ Cultivate exemplary graduate instruction through a professional atmosphere in which students learn, develop, promote integrity and contribute to the broader aviation community.
- ▷ Engage in applied aerospace research and scholarly initiatives that benefit industry, general aviation, government and the public.
- ▷ Provide leadership, expertise and professional development opportunities for aerospace professionals and the aerospace industry and promote a greater understanding of aerospace among the general public.
