

# M.S. EDUCATIONAL PSYCHOLOGY

OPTION IN RESEARCH, EVALUATION, MEASUREMENT AND STATISTICS

COLLEGE OF EDUCATION, HEALTH & AVIATION

## PROGRAM HIGHLIGHTS

**The research, evaluation, measurement and statistics (REMS) programs** provide an academic experience focusing on instruction, scholarship and service. Students receive excellence in training and faculty mentoring through academic coursework and research. Practicum opportunities and assistantships allow students to practice and develop their research skills in applied settings such as the OSU Center for Educational Research and Evaluation (CERE) and OSU University Testing and Assessment (UAT). Faculty work with students throughout their academic program to develop a professional service identity and encourage students to present research at conferences.
