**White Folks:**
Race and Identity in Rural America

Current antiracist work is often grounded in a white privilege framework that has proven ineffective — in part because it reduces white people to little more than the embodiment of privilege. Lensmire provides an alternative that confronts the violence at the core of white racial selves that has become increasingly visible in American society and politics, but that also illuminates conflicts and complexities there.

Author, Dr. Tim Lensmire, Professor of Curriculum and Instruction, U of Minnesota, will join us via Zoom.
