

PEOPLE . PASSION . PURPOSE

People are at the core of all that we do in the College of Education and Human Sciences. With a commitment to diversity and inclusion, we empower lifelong learners and leaders who strengthen communities through education, health, human development and more. We enhance lives with our innovative research, teaching and engagement.

HIGHLIGHTS

- Largest collection of health programs on the Stillwater campus with roughly one-third (34 percent) of students pursuing an academic degree related to mental, physical or relational health.
- Nationally ranked programs in early childhood education, educational technology, fashion design and production and merchandising.
- Robust research portfolio that includes human development across the lifespan, K-12 and STEM education, nutrition and disease prevention, learning and technology, human environments and pilots and aerospace safety.
- Nationally respected aviation education program that meets growing industry demand by preparing professional pilots and is one of only 18 schools in the U.S. to offer graduate degree programs.
- Home to the Professional Education Unit, which prepares and develops educators who facilitate life-long learning and enrich quality of life for people in public schools and other educational settings.
