Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Please note that this table includes all students who enroll in our program, whether they enter directly with a Bachelor's degree or with a master's degree in a counseling related field. We typically admit 5 post-master's students per year, and 3 post-Bachelor's students per year. The post-Bachelor's program takes approximately 6 years to complete, and the post Master's program takes approximately 4 years to complete. This varies across students. Overall, our doctoral students in Counseling Psychology are very timely in their progress through the program.
