HUMAN SCIENCES

RAY & LINDA BOOKER
OSU FLIGHT CENTER

The 11,600-square foot facility is named after the Bookers, two aviation enthusiasts and longtime Oklahoma State supporters.

FLYING HIGH

Located just south of Stillwater Regional Airport, the versatile facility includes state-of-the-art simulator technology, debriefing rooms where student pilots receive feedback, a student lounge and locker room, an academic suite, flight simulation rooms, dispatch space and workstations for flight instructors.

FLIGHT TRAINING AND CERTIFICATIONS

OSU flight training for professional pilot students includes Federal Aviation Administration (FAA) certification with courses offered in private, instrument, commercial, multiengine and certified flight instructor (CFI). The Ray and Linda Booker OSU Flight Center is an approved FAA Part 141 and Restricted ATP program.
