Registration Now Open!

DIRECTOR'S NOTE

Welcome to the spring 2023 session of OLLI!

Within, you will find a variety of courses, events and social activities that we hope will keep you curious. Many thanks go to the OLLI volunteers and instructors who work hard to bring these offerings to you. We couldn't do it without them.

Please note that there is a day-trip this session where we'll explore some of Tulsa's newest cultural destinations on Thursday, April 20. We additionally have a Costa Rica trip scheduled for May, details for which are also listed. Both tours are open to guests, as are the free Town Halls in each city. Invite a friend to join you!

We are excited to welcome the members, volunteers and staff of Healthy Living OKC to OLLI. We look forward to this new partnership and the opportunity to work together. Two courses will be offered at the Rockwell OKC campus this spring on Tuesdays — check 'em out.

Lastly, I'm happy to report that at the close of our fall session, we had 300 active members, which is more than halfway to our membership goal of 500. Help us continue to grow the program by inviting someone to OLLI or telling them about your courses.

See you in class!

WHAT IS OLLI?

The Joy of Learning

The Osher Lifelong Learning Institute (OLLI) at Oklahoma State University is a member-driven program developed for adults aged 50 and better who are interested in enriching their lives by expanding their intellectual experiences. Opportunities include courses, lectures, workshops, travel opportunities and special events. Instructors are qualified individuals from careers in academia, business, the arts and government. There are no tests and no grades; members pursue learning for pure pleasure.

Each of the four OLLI at OSU cities has a local leadership committee. All current members are eligible to serve as leadership volunteers. Contact the OLLI office for more information.

All operating costs are funded by membership fees, the Bernard Osher Foundation and Oklahoma State University, with special thanks to the Osher Lifelong Learning Institute and the OSU College of Education and Human Sciences.

POLICIES

Attendance

Your active participation is important to the success of the classes. If you are enrolled in an online course, please make every attempt to be present on class days. We strive to not have a situation where 20 people enroll but only five show up for the live presentation.

Cancellation Deadlines and Member Credit

Members who cancel their participation in a course or event prior to that activity's cancellation deadline can request credit for any fees paid. This credit can be applied to a future OLLI activity or membership fee upon member request.

Class Size Limits

Courses that are limited in size are noted in the course descriptions. If you are interested in one of these courses, enroll early. Classes must have a minimum of six students enrolled unless otherwise noted.

Course Evaluations

At the end of each course, all members on the roster will receive an email with a link to complete a brief course evaluation. Please complete an evaluation within five days of the end of each course you attend. These evaluations are vitally important to OLLI staff, instructors and the curriculum committee for future course planning.

Dropping a Class and Waitlists

Once a course/activity fills, members are placed on a waitlist in order of enrollment. Members wishing to cancel their participation in an OLLI at OSU activity should contact olli@okstate.edu or **405-744-5868** at least 24 hours in advance of the activity so staff can then notify the next member on the waitlist.

Name Tags

If you registered more than a week before in-person classes begin, you will have a name tag at the registration table. If you register less than a week prior to the first class meeting date, your name tag will be available the second meeting date. Please remember to return your name tag to the storage case as you leave the venue for the day. Alert the site coordinator if your name tag needs to be replaced.

OLLI Open Houses

Open Houses are scheduled at least once in each of our program cities. New and renewing members are invited to attend for free and register for the upcoming session, ask questions about courses and meet the OLLI staff.

Payment and Refunds

All fees are due at the time of registration. A 100% refund of class fees will be granted if canceled within seven days of the class start date. We accept payment by check and Visa/MasterCard/Discover credit cards. Only OSU employees may accept payments. The staff who work for our satellite classroom partners cannot accept payments for OLLI at OSU memberships or activities. No refunds are available after classes begin. OLLI at OSU staff make every attempt to reschedule activities that cannot be held at their originally scheduled date and time. If a class cannot be rescheduled, any course fees paid will be refunded or credited to your account.

Public Health and Safety

OLLI at OSU staff follow the health and safety policies put forth by the university. If you are feeling ill, please stay home to keep yourself and fellow OLLI members safe.

Refreshments

Light snacks, coffee and water may be included with registration for in-person classes.

Student Conduct

OLLI adheres to the OSU Student Code of Conduct found at <https://ssc.okstate.edu/student-conduct/code.html>.

Textbooks, Supplies and Handouts

All member levels are responsible for purchasing their own supplies and recommended texts. Course handouts will be emailed prior to classes. A limited number of paper copies will be available for in-person classes.

Weather Closures and Cancellation Notices

If OSU closes due to inclement weather, all OLLI at OSU activities will be canceled as well. Otherwise, the decision to cancel an activity during inclement weather will be made based on conditions at each classroom location and input from our instructors. In the event that an OLLI at OSU activity is canceled or rescheduled for any reason, members will be notified by email or text message. It is important that you provide OLLI at OSU with your best contact information. If your phone accepts text messages, please ensure we have your mobile carrier on file.

Email Newsletter

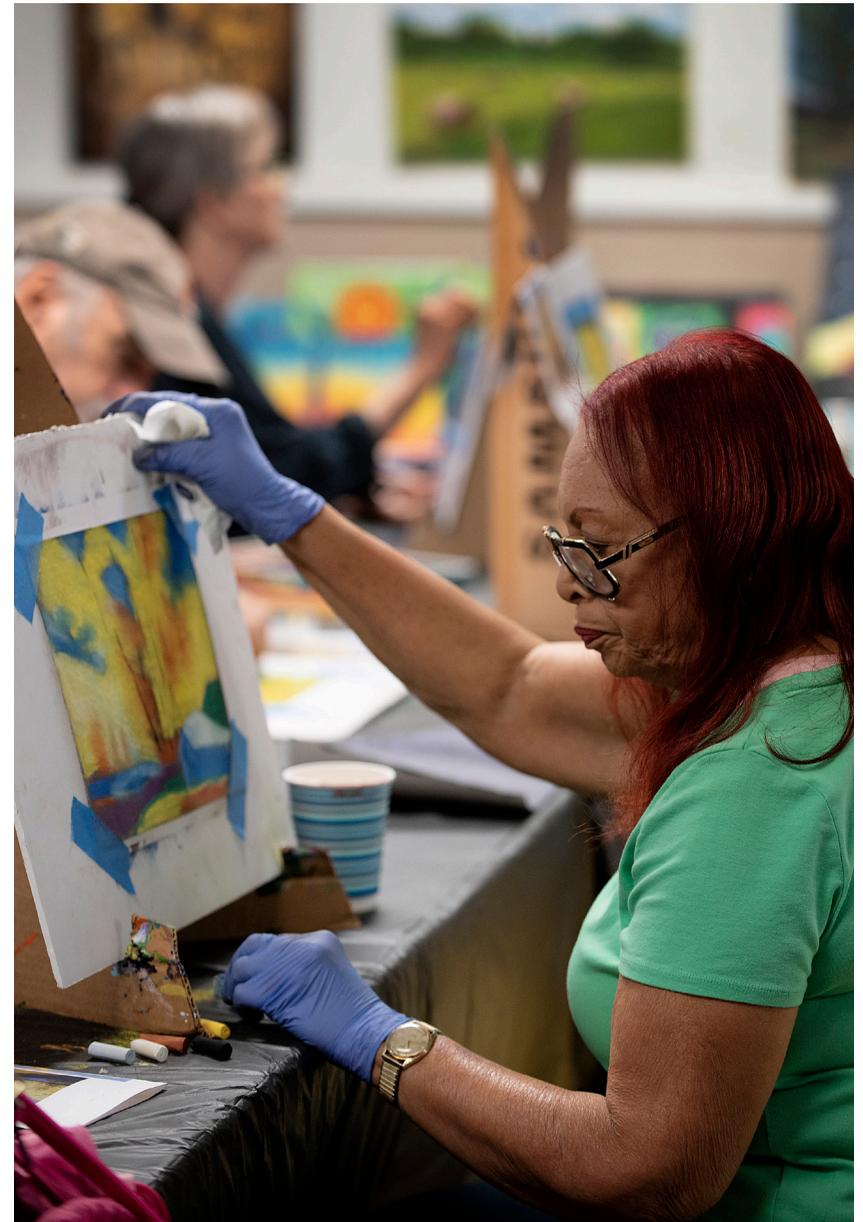

Active members receive the e-newsletter. These emails tend to include the following information:

- The upcoming week's schedule
- Zoom links for any upcoming virtual activities
- Important program announcements and schedule changes
- Upcoming local events of interest

If you're not receiving our emails in your inbox, first check to see if your email provider is filtering them into your junk or spam folder. To prevent our emails from being marked as junk, it may help to add olli@okstate.edu to your email account's contacts. If that doesn't fix the issue, please contact our office for assistance.

Zoom Recordings

Links to available recordings for online courses are only sent to course enrollees. The recordings will remain available through the end of the session. Not all online courses are recorded. Classes are recorded at the instructor's discretion.

SPECIAL PROGRAM

The Cognitive Stimulation Program: Train Your Brain

These courses are the creation of Dr. Sabiha Parveen and her team in OSU's Department of Communication Sciences and Disorders. This eight-week program will help seniors in and around Stillwater find resources and engage in cognitive and language activities to keep their brains sharp. Group-based activities will aim to improve and maintain some of the critical cognitive skills (including attention, memory and social communication) for increased safety, independence and engagement in daily activities. These groups are available for anyone who is interested in learning ways to keep their brain engaged and active. You will be suggested to one of the three OLLI groups (among the two online and one in-person) that best fits with your needs and experiences based on an initial assessment (a 30-45 minute one-on-one meeting) to be conducted between Jan. 23- Feb. 10.

Three options are available:

- Online group for those beginning to notice some changes in attention and memory but not seeing an impact in daily interactions and performances. *
- Online group for those who have been seeing considerable changes in attention and memory and also seeing impact in ability to do things they enjoy. *
- In-person group that will target skills such as attention, memory, naming and problem-solving.

The course fee helps off-set the cost of materials provided to each participant. Income-based financial assistance is available for those who qualify. Contact the OLLI office for more information prior to enrolling. Active OLLI membership levels pay the same fee.

In this cooperative learning course, we will examine how climate change and farming practices contribute to food scarcity. Building hope for the future must begin with a look at the effects of drought and flooding. Global food shortages are recognized not only in high prices at our grocery stores, but also in the absence of many items that are scarce. Food banks cannot keep up with demand in many communities. Let's look at new strategies, such as changing our diets, using heat-resistant gardening techniques, alternative protein sources and food made in factories.

Birthered by war and new technologies, this era was plagued by nativism and bigotries. Women won the vote and freedom in fashion, while white evangelicals imposed Prohibition, creating a nation of lawbreakers. Automobiles led to the first federal monies and routes. Movies, magazines and radio changed culture from local to national. Tractors opened new lands with dubious results. Jim Crow and racism raged, but African Americans grew nation-changing cultures and aesthetics. White conservative politics reigned, attacking "socialism" and espousing "free enterprise" to grow corporate America — until it stopped growing and crashed. And America was never the same.

Movement, The Land Run,
and Early Oklahoma City*
by Michael J. Hightower

The U.S. opened the Unassigned Lands of Indian Territory to non-native settlement on April 22, 1889. We’ll discuss how this “land run” was the culmination of 10 years of activism and agitation by the Oklahoma Boomer Movement in which some led repeated incursions into the lands they believed open to settlement. But that’s just part of this story. The range cattle industry held control of these lands with the U.S. Cavalry acting as their private police force, and some activists even took the fight to Congress.
