

NCHP Proposals for Presentation

The conference seeks presentations from diverse researchers and practitioners, particularly in higher education and social work (but inclusive of other fields).

Individuals may propose their current, original, empirical research to present at the conference. Relevant conceptual and/or theoretical presentations are also welcome. Early through late career researcher-, practitioner-, and student-conducted work will be considered. Work must be completed by the date of the conference but may be pre- or post-publication/acceptance. All presenters must provide a 1000 word summary of their research with a focus on practitioner implications (i.e., research to practice) to be distributed at the conference. Submitting a presentation proposal requires individuals to affirm: (1) all authors listed on the proposal have agreed to the submission; (2) if accepted, at least one author/presenter will physically attend the conference; and (3) permission is provided for submitted research summary to be published in electronic and/or print formats following the conference. Presenters may or may not also choose to propose to be on a research team.

Review Process

The process of review and acceptance of proposals will be an anonymous peer review process.

Presentation proposals will be reviewed for the following:

- Relevance of topic, study, or inquiry to practitioners, policy-makers, and researchers
- Relevance of topic to the Conference's focus and goals
- Clarity of the written proposal and focus of inquiry
- Appropriateness of the research method(s) and/or conceptual foundation
- Robustness of analytical and/or theoretical frame
- Diversity of approach
- Significance for translating research to practice and policy impacting college-going hidden college student populations

Completed proposals may be submitted as a MS Word document or PDF. Email completed proposals to nchp@okstate.edu by 5:00 pm (CST), April 1, 2022. Please include in the subject line: Presentation Proposal.

Demographics (required):

First Name:

Last Name:

Highest degree attained:

Position Title (if faculty, include rank):

Institution:

Email:

Phone:

In 1000 words or less, please include (required):

(1) Title;

(2) Abstract (75 - 100 words);

(3) Summary of study design: Problem, purpose, theoretical/conceptual framework, methodology, data sources, data analysis, **OR** Description of project: impetus for work, process/description, insights

(4) Findings/Outcomes

(5) Implications for Practice or Policy

(6) Conclusions

(7) As appropriate: Tables and/or figures (not included in word count)

(8) References (not included in word count)

In 300 words or less, please describe involvement or interaction with NCHP (required): (Note: Being new to our community is not viewed as a negative.)

I affirm that all authors listed on the proposal have agreed to the submission. Yes No

If accepted, at least one author will attend the conference. Yes No

I affirm that all authors hereby give permission for submitted research summary to be published in electronic and/or print formats following the conference. Yes No

I am committed to providing space reflective of respect for person, inclusivity, and diversity.
