

**Oklahoma State University  
Ph.D. in Education  
Annual Review Form**

All doctoral students working toward the Ph.D. in Education at Oklahoma State University are expected to complete an annual review by **May 15**. The annual review process is designed to help students document and reflect on their experiences as well as help faculty provide feedback and suggest relevant opportunities to their advisees.

Students should use the annual review to summarize their accomplishments from that academic year. It is expected that subsequent reviews will reflect progress toward the recommendations presented in the review from the previous year.

To complete the annual review, Ph.D. students should respond to all questions in this form. They should then share the completed document with their advisor for discussion and approval. Once approved, the advisor will submit the form to the Ph.D. in Education coordinator.

If you have questions about this process, please contact your advisor, your option area’s graduate coordinator, and/or the Ph.D. in Education coordinator.

We hope this is a supportive process in your doctoral program.
