To be recommended for an add-on licensure in elementary education through Oklahoma State University’s Professional Education Unit, the student must:

- Hold a current Oklahoma teaching certificate acquired through a traditional teacher preparation program (alternative certification not included)
- Pass the OSAT-Elementary Subtest 1 & 2
- Complete the following graduate coursework (Minimum GPA 3.0 with a minimum grade of “C” in any course) (12 hours):
  - CIED 5013 Seminar in Mathematics Education: Theory & Practice (Grades 1-8)
  - CIED 5083 Teaching Science in the Elementary School (Grades 1-8)
  - CIED 5323 Teaching Social Studies in the Schools
  - CIED 5640 Literacy Education: Theory & Practice (Grades 1-8)*
- 60 hours of field experience in an elementary classroom is required.

Note: All of these hours would count toward the TLL in EMSK12 master’s degree – area of emphasis. If a person plans on pursuing their masters, it is important to note that only 9 hours should be completed prior to being admitted to a graduate program.
